

Approval: 10th Senate Meeting

Course Name : Design Practicum I
Course Number : DP501P
Credit : 0-0-4-2
Prerequisites : None
Students intended for : M.Sc. (Chemistry)
Elective or Compulsory : Core

Course Description

This course is offered to the first semester M.Sc. (Chemistry) students in order to give them an exposure to design and research problems right from the start of the program. In this course, each student is assigned to a faculty mentor and performs a detailed study of a particular research problem. The students do extensive literature survey on the assigned research problem and present their works in open seminars.

Course Evaluation

Two seminars (mid-term and final presentations) of 50% each evaluated by an internal committee.
