

## **Dr. Pradeep Kumar has been selected as a member of INYAS**

Dr. Pradeep Kumar, Assistant Professor in the School of Basic Sciences has been selected as a member of INYAS (Indian National Young Academy of Science), for a period of five years starting from January 2018.

His current area of research is focused on probing phonon dynamics of low-dimensional (Carbon nanotubes, Graphene, Graphene based heterostructures, nano-particles, etc.) and strongly correlated systems (Multiferroic oxides, Iron-based superconductors, Topological insulators, Spin-frustrated systems).
